

Lake Worth Drainage District: Service Boundary Internal Drainage System Authorization Contacts

It is important that Lake Worth Drainage District (LWDD) knows who is responsible for the maintenance of your community's internal drainage system and control structure operation. This may be one or more individuals such as: board member(s), drainage committee member(s) and/or the property manager.

There are two reasons LWDD requests this information:

- LWDD needs to verify that the individual requesting approval to open an internal control structure has the authority of the community's Board
- LWDD needs to know who to contact with weather alerts and emergency instructions

LWDD suggests communities update this information when there is a change in personnel and/or at least once a year to verify the information is current. Please provide the following information to LWDD via e-mail at info@lwdd.net, fax at 561-495-9694 or mail to 13081 S. Military Trail, Delray Beach, FL 33484.

Community Name: _____

Community location or address: _____

Contact Name: _____ Phone and/or Cell: _____ E-mail: _____

Contact Name: _____ Phone and/or Cell: _____ E-mail: _____

Contact Name: _____ Phone and/or Cell: _____ E-mail: _____

(Continue additional contacts on a separate sheet)

Please do not hesitate to contact LWDD if you have questions or would like to schedule an on-site visit to discuss the drainage system in more detail. Also, LWDD offers speakers for association or civic meetings.

Thank you in advance for your cooperation.
