**Re: SECOND NOTICE: Rehabilitation of Lake Worth Drainage District's L-5 Canal Right-of-Way from Military Trail to Kirk Road  
LWDD Project No. 15-9586P.02**

Dear Sir or Madam:

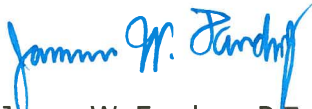

The Lake Worth Drainage District (District) is scheduled to begin necessary rehabilitation work on the L-5 Canal right-of-way adjacent to your property during the week of April 11, 2016. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event, and create serious flooding issues for neighborhoods downstream.

As you may have noticed, the District has recently staked its right-of-way boundaries on the L-5 Canal, and identified encroachments within the canal right-of-way including trees, vegetation, structures, and fences. Property owners have been requested to remove all encroachments and personal property within this area. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project will be removed and disposed of by the District.

For additional information on the District and canal rehabilitation projects, please visit our website at [www.lwdd.net](http://www.lwdd.net) or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Joseph Walsh, Right-of-Way Section Leader, at 561-498-5363, extension 5588.
