Weather Update

You are receiving this email because you have expressed an interest or are the designated flood control/drainage entity.

As of October 5, 2016 at 5:00 pm, all neighborhood discharge control structures must be closed and remained closed until farther notice. Opening a discharge control structure without authorization from the District may cause canal water to backflow into the community lake system.

Residents should monitor local news stations for tracking updates and follow instructions from local authorities. The District will provide additional water management updates via email, website, Twitter and Facebook.

Residents are reminded that District canal levels may increase with rainfall but will slowly recede in response to primary control structures making the necessary discharges. Rainfall may raise community lake levels and produce temporary flooding of streets, sidewalks and yards in low lying areas. Remember that these areas are designed and constructed to hold and store excess rainfall runoff to avoid flooding of homes and businesses.

Caution should always be applied when walking or driving through flooded areas. For life threatening emergencies dial 911. Visit our website at www.lwdd.net for more information on managing water.

Thank you,
Lake Worth Drainage District
561-498-5363
info@lwdd.net

This message is only for those property owners within the boundary of the District. In general the District boundary is Okeechobee Blvd. to the Hillsboro Canal (or Broward County line) and from State Road 7 to I-95. For a map of the District [click here](#).

All others should contact the Palm Beach County Emergency Management at 561-712-6400.

Lake Worth Drainage District, 13081 Military Trail, Delray Beach, FL 33484
