**DELIVERED VIA REGULAR MAIL**

**Subject: NOTIFICATION OF UPCOMING WORK - Rehabilitation of E-2 Canal Right-of-Way from the L-2 Canal to Okeechobee Boulevard (Project No. 16-9917P.02)**

Dear Mr. and Mrs. Friedman:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the E-2 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

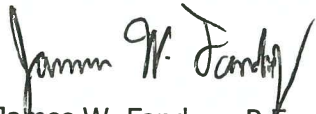

In order to identify the boundaries of the District's E-2 Canal right-of-way, both the east and west canal right-of-way lines within the limits of the project will be field-staked by the District's Florida Licensed Surveyors. This field-staking has not been scheduled, but you will be notified of this work in future correspondence. Any plantings or vegetation, structures, fences or personal property located and identified within the E-2 Canal right-of-way should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If any of these existing encroachments have previously been permitted by the District, you may apply for a permit to replace them; however, all current and applicable permit criteria must be met. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.
