JAMES W. & TINA G. BALLENTINE  
2986 GENOA WAY  
DELRAY BEACH FL 33445 7135

**DELIVERED VIA REGULAR MAIL AND HAND DELIVERY**

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-37 Canal from Approximately 2000 Feet West of the LWDD E-4 Canal to the LWDD E-4 Canal (Project No. 16-9857P.04; Job No. 143C)**

Site Address: 2986 GENOA WAY DELRAY BEACH FL 33445

Dear JAMES W. & TINA G. BALLENTINE:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-37 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-37 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of July 30, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 13, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in late September 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Along with this letter, you have been supplied with a colored map with an aerial photograph that shows your property along with the L-37 Canal. The L-37 Canal north and south right-of-way lines are the red dashed lines on the map.

Sincerely,

James W. Fandrey, P.E.  
Assistant Director of Right-of-Way

This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-37 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of July 30, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 13, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in late September 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Along with this letter, you have been supplied with a colored map with an aerial photograph that shows your property along with the L-37 Canal. The L-37 Canal north and south right-of-way lines are the red dashed lines on the map.

Sincerely,

James W. Fandrey, P.E.

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-37 Canal from Approximately 2000 Feet West of the LWDD E-4 Canal to the LWDD E-4 Canal (Project No. 16-9857P.04; Job No. 143C)**

Site Address: 2600 WHISPERING OAKS LN DELRAY BEACH FL 33445

Dear DONALD R. & SUANN TESCHER:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-37 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-37 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of July 30, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 13, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in late September 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

Site Address: 2913 SABALWOOD CT DELRAY BEACH FL 33445

Dear ALFONSO M. LOPEZ :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-37 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-37 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of July 30, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 13, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in late September 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Along with this letter, you have been supplied with a colored map with an aerial photograph that shows your property along with the L-37 Canal. The L-37 Canal north and south right-of-way lines are the red dashed lines on the map.

FELICIA STEINBERG & MITCHELL ULMAN  
2903 SABALWOOD CT  
DELRAY BEACH FL 33445 7140

**DELIVERED VIA REGULAR MAIL AND HAND DELIVERY**

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-37 Canal from Approximately 2000 Feet West of the LWDD E-4 Canal to the LWDD E-4 Canal (Project No. 16-9857P.04; Job No. 143C)**

Site Address: 2903 SABALWOOD CT DELRAY BEACH FL 33445

Dear FELICIA STEINBERG & MITCHELL ULMAN:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-37 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-37 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of July 30, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 13, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in late September 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-37 Canal from Approximately 2000 Feet West of the LWDD E-4 Canal to the LWDD E-4 Canal (Project No. 16-9857P.04; Job No. 143C)**

Site Address: 2701 HAMPTON CIR N DELRAY BEACH FL 33445

Dear J. RICHARD & JEANNINE M. STEWART:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-37 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-37 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of July 30, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 13, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in late September 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Along with this letter, you have been supplied with a colored map with an aerial photograph that shows your property along with the L-37 Canal. The L-37 Canal north and south right-of-way lines are the red dashed lines on the map.

Sincerely,

James W. Fandrey, P.E.
