**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 5120 PINEVIEW CIR DELRAY BEACH FL 33445

Dear RONALD L. PLATT TRUST & MARY ANN PLATT TRUST:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). **Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 4989 PINEVIEW CIR DELRAY BEACH FL 33445 4348

Dear RUIHUA YANG :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

**DELIVERED VIA REGULAR MAIL AND HAND DELIVERY**

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 959 GREENSWARD LN DELRAY BEACH FL 33445 9022

Dear MANUEL A. GUTIERREZ :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. Site Address: 3907 LOWSON BLVD DELRAY BEACH FL 33445 5650

Dear BONNIE L. D. COZZOLINO & BONNIE L. D. COZZOLINO TR.:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

A handwritten signature in blue ink that reads "James W. Fandrey". The signature is written in a cursive style with a large, stylized initial 'J'.

Dear SCOTT A. SEMPIER :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

**DELIVERED VIA REGULAR MAIL AND HAND DELIVERY**

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 3881 LOWSON BLVD DELRAY BEACH FL 33445 5648

Dear ELROY G. & PENELOPE A. STONE:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

**DELIVERED VIA REGULAR MAIL AND HAND DELIVERY**

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 3521 LOWSON BLVD DELRAY BEACH FL 33445 5642

Dear JOHN R. ADAMS III. & DIANNE E. ADAMS:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 3625 LOWSON BLVD DELRAY BEACH FL 33445 5644

Dear BENJAMIN E. BASSFORD III. & CAROLE P. BASSFORD:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 3319 LOWSON BLVD DELRAY BEACH FL 33445 5638

Dear JEFFREY W. & BREANNA M. KOZAN:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

3121 LOWSON BLVD  
DELRAY BEACH FL 33445 5634

**DELIVERED VIA REGULAR MAIL AND HAND DELIVERY**

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 3121 LOWSON BLVD DELRAY BEACH FL 33445 5634

Dear NATHAN J. MARTIN :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

**Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-35 Canal from Military Trail to the LWDD E-3½-3 Canal (Project No. 16-9415P.04; Job No. 136)**

Site Address: 3209 LOWSON BLVD DELRAY BEACH FL 33445 5636

Dear RANDY L. & BARBARA J. WHITESELL:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-35 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-35 Canal rights-of-way, both the north and south canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at [www.lwdd.net](http://www.lwdd.net) and click on 'In Your Neighborhood' or email us at [info@lwdd.net](mailto:info@lwdd.net). If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

A handwritten signature in blue ink that reads "James W. Fandrey". The signature is fluid and cursive, with the first name being the most prominent.
