ROBERTA S. BROWN & ROBERTA S. BROWN TR.
385 HAMLET DR
DELRAY BCH FL 33445 3937

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 385 HAMLET DR DELRAY BCH FL 33445 3937

Dear ROBERTA S. BROWN & ROBERTA S. BROWN TR.:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

Site Address: 576 SW 29TH AVE DELRAY BCH FL 33445 4461

Dear DAVID BARCHI :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 554 SW 29TH AVE DELRAY BCH FL 33445 4461

Dear BENJAMIN & GOVINDA G. BILGES:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 596 SW 29TH AVE DELRAY BCH FL 33445 4461

Dear ERIC & WENDY SMITH:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. BARBARA WEINTRAUB
556 SW 29TH AVE
DELRAY BCH FL 33445 4461

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 556 SW 29TH AVE DELRAY BCH FL 33445 4461

Dear BARBARA WEINTRAUB :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. SILVIA CALDERON
690 W CLEARBROOK CIR
DELRAY BCH FL 33445 4513

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 690 W CLEARBROOK CIR DELRAY BCH FL 33445 4513

Dear SILVIA CALDERON :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 790 CLEARBROOK PARK CIR DELRAY BCH FL 33445 8746

Dear SUSANA RONDON :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. JOHN J. & ARLENE TODINO
800 CLEARBROOK PARK CIR
DELRAY BCH FL 33445 8748

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 800 CLEARBROOK PARK CIR DELRAY BCH FL 33445 8748

Dear JOHN J. & ARLENE TODINO:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 571 PINE LAKE DR DELRAY BCH FL 33445 9040

Dear PHYLLIS E. IMHOFF & ALLEN TRUST COMPANY TR.:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: INITIAL NOTIFICATION - Rehabilitation of the LWDD L-34 Canal from Sherwood Forest Drive to the LWDD E-3½-3 Canal and the LWDD E-3½-3 Canal from Approximately 2100 Feet South of the LWDD L-34 Canal to the LWDD L-34 Canal (Project No. 16-9539P.07; Job No. 132)

Site Address: 574 PINE LAKE DR DELRAY BCH FL 33445 9039

Dear ROSLYN S. BOULEY :

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-34 and the E-3½-3 Canals adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

In order to identify the boundaries of the District's L-34 and the E-3½-3 Canal rights-of-way, both the north and south, and both the east and west canal right-of-way lines within the limits of the project are scheduled to be field-staked by the District's Florida Licensed Surveyors beginning the week of August 13, 2018. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are considered to be encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

Please note, to share project-specific information with affected residents, the District is hosting an informational Open House Meeting from 8:00 AM to 9:00 AM on September 6, 2018 at District Headquarters located at 13081 South Military Trail, Delray Beach, Florida 33484.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way please contact the District as soon as you can so that this information can be reviewed.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin in early October 2018. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view a short (approximately four minute) video regarding the District's Canal Rehabilitation Program please go to the following link: <https://youtu.be/WX64Dp1BRaU>. For additional information regarding this canal rehabilitation project, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-498-5363, extension 5580.

Sincerely,

A handwritten signature in blue ink that reads "James W. Fandrey". The signature is fluid and cursive, with the first name being the most prominent.
