NOTICE OF WORK ADJACENT TO PROPERTY

September 9, 2016 - **DELIVERED VIA HAND DELIVERY**

Subject: THIRD NOTIFICATION - Rehabilitation of L-14 Canal Right-of-Way (LWDD Project No. 16-8918P.02)

Attention Resident/Occupant:

Lake Worth Drainage District crews are scheduled to begin work on the canal right-of-way adjacent to your residence/building within the next two week-period commencing on Monday, September 12, 2016.

As previously indicated in the mailed and hand-delivered notification letters dated May 31, 2016 and July 18, 2016, the Lake Worth Drainage District (District) is to perform necessary rehabilitation work on the L-14 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal rights-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

District surveyors were previously on-site to stake the canal right-of-way, delineate property lines and identify any vegetative or structural encroachments. All encroachments and personal property within the District's canal-right-of way must be removed by the property owner. Please be advised that any encroachments remaining in the right-of-way at the commencement of this rehabilitation project may be removed and disposed of by the District.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they will be removed with this rehabilitation project. If any of these existing encroachments have previously been permitted by the District, you may apply for a permit to replace them; however, all current and applicable permit criteria must be met. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

For additional information regarding this canal rehabilitation project, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Joseph Walsh, Right-of-Way Section Leader, at 561-498-5363, extension 5588.
