DELRAY BEACH FL 33446 9539

**Subject: E-2W Canal Rehabilitation from L-35 Canal to Atlantic Avenue  
adjacent to Delray Lakes Estates (FINAL NOTIFICATION)  
Project 16-9931P.04; Job #134C**

Dear ANTHONY M & DONNA DIVIETRO:

The Lake Worth Drainage District (District) is scheduled to commence rehabilitation work on its E-2W Canal adjacent to the Delray Lakes Estates community in late-March 2023. It is necessary for the District to recover and restore the entirety of its right-of-way in this area to ensure routine and emergency access and maintain effective drainage for the Turnpike and surrounding neighborhoods.

Following the virtual public meeting held in October 2021 and subsequent meetings with Delray Lakes Estate Homeowners Association representatives through March 2022, the District agreed to postpone the canal rehabilitation project until 2023. The additional time was granted to provide an opportunity for the community to evaluate and plan alternatives for installation of a barrier outside of the District’s canal right-of-way.

Canal rehabilitation work will include removal of all vegetation and the earthen berm within the District’s canal right-of-way. Once completed, the District has agreed to permit temporary access for installation of a barrier from the District’s canal right-of-way, rather than contractors having to enter through individual properties.

The limits of the project are scheduled to be surveyed and staked beginning the week of February 21, 2023 to identify the boundaries of the District’s E-2W Canal right-of-way. Any plantings or vegetation, structures, fences, irrigation, or personal property located and identified within the right-of-way are encroachments and must be removed by the property owner prior to commencement of the project. Please be advised that any encroachments remaining in the right-of-way will be removed and disposed of by the District.

Project 16-9931P.04 Job #134C

January 23, 2023

Page 2

It is estimated that the project will be completed within 6-8 weeks of commencement. The project schedule is subject to change due to weather conditions and allocation of resources.

If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Compliance Supervisor, at 561-819-5580 or [ssherman@lwdd.net](mailto:ssherman@lwdd.net).

Sincerely,

HOWARD & DIANE CHRISTIE  
8282 SAWPINE RD  
DELRAY BEACH FL 33446 9795

**Subject: E-2W Canal Rehabilitation from L-35 Canal to Atlantic Avenue  
adjacent to Delray Lakes Estates (FINAL NOTIFICATION)  
Project 16-9931P.04; Job #134C**

Dear HOWARD & DIANE CHRISTIE:

The Lake Worth Drainage District (District) is scheduled to commence rehabilitation work on its E-2W Canal adjacent to the Delray Lakes Estates community in late-March 2023. It is necessary for the District to recover and restore the entirety of its right-of-way in this area to ensure routine and emergency access and maintain effective drainage for the Turnpike and surrounding neighborhoods.

Following the virtual public meeting held in October 2021 and subsequent meetings with Delray Lakes Estate Homeowners Association representatives through March 2022, the District agreed to postpone the canal rehabilitation project until 2023. The additional time was granted to provide an opportunity for the community to evaluate and plan alternatives for installation of a barrier outside of the District's canal right-of-way.

Canal rehabilitation work will include removal of all vegetation and the earthen berm within the District's canal right-of-way. Once completed, the District has agreed to permit temporary access for installation of a barrier from the District's canal right-of-way, rather than contractors having to enter through individual properties.

The limits of the project are scheduled to be surveyed and staked beginning the week of February 21, 2023 to identify the boundaries of the District's E-2W Canal right-of-way. Any plantings or vegetation, structures, fences, irrigation, or personal property located and identified within the right-of-way are encroachments and must be removed by the property owner prior to commencement of the project. Please be advised that any encroachments remaining in the right-of-way will be removed and disposed of by the District.

Project 16-9931P.04 Job #134C

January 23, 2023

Page 2

It is estimated that the project will be completed within 6-8 weeks of commencement. The project schedule is subject to change due to weather conditions and allocation of resources.

If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Compliance Supervisor, at 561-819-5580 or [ssherman@lwdd.net](mailto:ssherman@lwdd.net).

Sincerely,
