UNITED STATES OF AMERICA
C/O OFFICE OF CONST MGT NAT CEMETERY ADM
810 VERMONT AVE NW # 401B
WASHINGTON DC 20420 0001

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

**Subject: 2nd Notification - S-8 Canal Rehabilitation from Heritage Farms to SR-7
(Project No. 16-9946P.01; Job No. 071)**

Site Address: 6501 S STATE ROAD 7, LAKE WORTH, FL 33449

Dear UNITED STATES OF AMERICA C/O OFFICE OF CONST MGT NAT CEMETERY ADM:

The Lake Worth Drainage District (District) is scheduled to commence necessary rehabilitation work on its S-8 Canal in early May 2023.

Following the initial notice mailed on October 10, 2022, a bald eagle's nest was identified adjacent to the canal. The project was postponed allowing sufficient time for eagle fledglings to leave the nest. A recent inspection has confirmed it is safe to proceed.

Canal rehabilitation work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal right-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

The limits of the project have been field-staked by District surveyors to identify the boundaries of the District's S-8 Canal right-of-way. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way, please contact the District as soon as you can so that this information can be reviewed.

Project No. 16-9946P.01; Job No. 071

April 14, 2023

Page 2

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they may be removed with this rehabilitation project. If any of these existing encroachments have previously been permitted by the District, you may apply for a permit to replace them; however, all current and applicable permit criteria must be met. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

To view additional information regarding this canal rehabilitation project including a map of the project boundaries, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Coordinator, at 561-819-5580 or ssherman@lwdd.net.

Sincerely,

Brian Tilles, P.E.
