CATARINA AMELIA SCHMIDT
889 DOLTON RD
WEST PALM BEACH FL 33415 2427

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: L-5 Canal Jog Rd to Fergusson Ln, Project #16-9837P.01

Site Address: 889 DOLTON RD, WEST PALM BEACH FL 33415 2427

Dear CATARINA AMELIA SCHMIDT:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-5 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal right-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

The limits of the project have been field-staked to identify the boundaries of the District's L-5 Canal right-of-way. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way, please contact the District as soon as you can so that this information can be reviewed.

Please note, to share project-specific information with affected residents, the District will host an informational meeting from 9:00 to 10:30 AM on Tuesday, November 28, 2023. Please join the meeting from your computer, tablet, or smartphone at <https://meet.goto.com/297929181>. You can also participate via phone by dialing United States: +1 (571) 317-3112; Access Code: 297-929-181. Meeting times and dates are subject to change. Please confirm meeting time and date on the District's website www.LWDD.net.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they may be removed with this rehabilitation project. If any of these existing encroachments have previously been permitted by the District, you may apply for a permit to replace them; however, all current and applicable permit criteria must be met. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin at the beginning of February 2024. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

To view additional information regarding this canal rehabilitation project including a map of the project boundaries, please visit our website at www.lwdd.net and click on 'In Your Neighborhood' or email us at info@lwdd.net. If you would like to speak with a representative regarding this specific project, please contact Steve Sherman, Right-of-Way Compliance Supervisor, at 561-819-5580 or ssherman@lwdd.net.

Subject: L-5 Canal Jog Rd to Fergusson Ln, Project #16-9837P.01

Site Address: 464 VIA HERMOSA, WEST PALM BEACH FL 33415 2427

Dear LYSANNE JIMENEZ & RAY FERRER:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-5 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal right-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

The limits of the project have been field-staked to identify the boundaries of the District's L-5 Canal right-of-way. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way, please contact the District as soon as you can so that this information can be reviewed.

Please note, to share project-specific information with affected residents, the District will host an informational meeting from 9:00 to 10:30 AM on Tuesday, November 28, 2023. Please join the meeting from your computer, tablet, or smartphone at <https://meet.goto.com/297929181>. You can also participate via phone by dialing United States: +1 (571) 317-3112; Access Code: 297-929-181. Meeting times and dates are subject to change. Please confirm meeting time and date on the District's website www.LWDD.net.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they may be removed with this rehabilitation project. If any of these existing encroachments have previously been permitted by the District, you may apply for a permit to replace them; however, all current and applicable permit criteria must be met. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin at the beginning of February 2024. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.

JULIA E DEAN
448 VIA HERMOSA
WEST PALM BEACH FL 33415 2456

DELIVERED VIA REGULAR MAIL AND HAND DELIVERY

Subject: L-5 Canal Jog Rd to Fergusson Ln, Project #16-9837P.01

Site Address: 448 VIA HERMOSA, WEST PALM BEACH FL 33415 2427

Dear JULIA E DEAN:

The Lake Worth Drainage District (District) is planning necessary rehabilitation work on the L-5 Canal adjacent to your property. This work is necessary to facilitate effective flood control for public safety and provide unobstructed access for emergency flood control response and routine canal maintenance. Rehabilitation efforts may include removal of vegetative encroachments, removal of structural and non-structural encroachments, dredging of the canal channel, and reshaping or reconstruction of the canal bank(s). Encroachments located on the District's canal right-of-way can create obstructions to water flow during a heavy rainfall event or hinder the District's ability to properly maintain the canal, both of which can cause serious flooding issues for surrounding neighborhoods.

The limits of the project have been field-staked to identify the boundaries of the District's L-5 Canal right-of-way. Any plantings or vegetation, structures, fences or personal property located and identified within this right-of-way are encroachments and should be removed by the property owner prior to the commencement of this project. Please be advised that any encroachments remaining in the right-of-way at the commencement of the project may be removed and disposed of by the District.

If you have any prior written approvals, agreements, permits, or any other written authorization from the District for any existing encroachments, or any other information relative to any existing encroachment within the canal right-of-way, please contact the District as soon as you can so that this information can be reviewed.

Please note, to share project-specific information with affected residents, the District will host an informational meeting from 9:00 to 10:30 AM on Tuesday, November 28, 2023. Please join the meeting from your computer, tablet, or smartphone at <https://meet.goto.com/297929181>. You can also participate via phone by dialing United States: +1 (571) 317-3112; Access Code: 297-929-181. Meeting times and dates are subject to change. Please confirm meeting time and date on the District's website www.LWDD.net.

Also, if you have constructed or installed any fencing, plantings or vegetation, or any other items within the canal right-of-way of which you are relying on for security purposes, please be advised these are considered encroachments and they may be removed with this rehabilitation project. If any of these existing encroachments have previously been permitted by the District, you may apply for a permit to replace them; however, all current and applicable permit criteria must be met. If you wish to secure your private property, you must do so outside the limits of the canal right-of-way.

Based on the District's current canal rehabilitation schedule, we estimate the project will begin at the beginning of February 2024. The project schedule is subject to change at any time due to weather conditions, labor or equipment allocations, project site conditions, etc.
